

ABOUT US

The Armed Services Blood Program (ASBP) is the official Department of Defense provider of blood products for U.S. Armed Forces. As a division in the Defense Health Agency, we focus on equipping service members, their families, retirees, and veterans worldwide with the lifesaving blood products needed, whether on the battlefield or in military hospitals, in peace and in war.

The ASBP is the official blood program of the U.S. military and is not affiliated with other civilian collection agencies. However, we are one of four organizations that ensures our nation has a safe, potent blood supply and we work together in times of need.

FOR SERVICE MEMBERS, THEIR FAMILIES, RETIREES, AND VETERANS

Blood products are used for military patients of all ages for many reasons. Whether blood is needed to treat cancer patients, surgical patients or battlefield injuries, all depend on blood donors every day.

While ASBP blood recipients are most often thought of as deployed service members injured in the line of duty, the ASBP also supports the peacetime needs of military personnel and their families. Blood must be available to military hospitals for scheduled and emergency procedures.

The ASBP is the official blood program of the U.S. military and is not affiliated with other civilian collection agencies. However, we are one of four organizations that ensures our nation has a safe, potent blood supply and we work together in times of need.

OUR MISSION

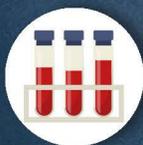

To provide quality blood products and support to military healthcare operations worldwide.
