

Naval Medical Center Portsmouth HEALTHCARE SIMULATION & BIOSKILLS TRAINING CENTER

Quarterly Newsletter - Summer 2023

DIRECTOR'S NOTES - CAPT JERROL WALLACE, NC, USN

Welcome to Summer! After a long deployment to the middle east, I am back at NMCP!

First, I have to thank the entire staff of the Simulation and Bioskills Training Center for continuing the amazing support to NMRTC Portsmouth and our neighboring partners while I was deployed. What also emerges within the summer months are new residents, interns, nurses, medical students, and hospital corpsmen who rely on our support to enhance their training. We welcome these new groups of trainees and remain eager in supporting the mission of the First and the Finest as we close out the Fiscal Year. Over the next few months, you may see new faces within the department but rest assured you will continue to get the same great support that you have become accustomed to! Please stop by and say hello!! WE TRAIN NAVY MEDICINE!

"GREAT SIM! I FEEL MORE COMFORTABLE MANAGING BLOOD"

See what HSBTC learners had to say about their recent experiences!

"GREAT SIM! I FEEL BETTER PREPARED. THANK YOU!"

"I WAS GLAD TO BE ABLE TO PRACTICE THIS IN A SCENARIO BEFORE HAVING TO DO THIS ON A PATIENT"

"ONE OF THE BEST LEARNING EVENTS AT NMCP! PLEASE DO MORE OF THESE EVENTS"

The HSBTC respects individual's privacy. Please follow NMCP's Social Media policy when taking pictures or videos in the Simulation Center.

MOST RECENT SIMULATION PUBLISHED RESEARCH ...

	Year	Title	Journal	Authors
1.	2023	Using Simulation to Teach Perioperative Nursing Skills	<i>Association of periOperative Registered Nurses</i>	Lacy L. Gee, DNP, RN, CDR, NC, USN; Joy A. Greer, MD, CAPT, MC, USN; Donald R. Delorey, PhD; Rebecca A. Kiser, MSN, RN; Steven R. Cauley, HM2, CST, CSFA, USN
2.	2023	Obstetric Simulation Training and Teamwork (OB-STaT): Immediate Impact on Knowledge, Teamwork and Adherence to Hemorrhage Protocols	<i>Simulation in Healthcare</i>	Joy A. Greer, MD, FACOG, FPMRS, CHSE, CAPT, MC, USN, Christopher S. Ennen, MD, CDR, MC, USN, Monica A. Lutgen-dorf, MD, FACOG, CDR, MC, USN, Lauren Van Petten, PhD, CHSE, Adrian Modzik, BS, CCRC,1 Dominick Salas, BA, Jessica Fish, MS, Reginald Middlebrooks, DNP, CRNA, Carmen N. Spalding, PhD, RN, CHSE, Donald R. Delorey, PhD
3.	2022	High-Fidelity Orthopaedic Surgical Skills Models and Resident Performance in the Surgical Treatment of Tibial Plateau Fractures	<i>Southern Orthopaedic Association</i>	Joshua Kotler, MD, MC, USN; Jennifer Sanville, MS; Joy Greer, MD, MC, USN; and Christopher Smith, MD, MC, USN

SIM CENTER DONATION WISHLIST: EZ IO drills and chest tube kits

UPCOMING EVENTS:

- ASSET + Course: 1-2 Aug 2023
- COTS Course: 3-4 Aug 2023
- Healthcare Simulation Week : 18-22 Sep 2023

TO SCHEDULE TRAINING:

Ms. Jakimjuk: 953-5546 or rebecca.j.jakimjuk.ctr@health.mil
Ms. Kiser: 953-5889 or rebecca.a.kiser.civ@health.mil

Our mission is to maximize readiness and patient care through professional and innovative high quality simulation training and research for military and civilian healthcare professionals.
