

Congratulations! Attached is the Obstetric Intake to register for prenatal care. Please fill these forms out completely as it will allow us to provide you with the most appropriate care during your pregnancy. If you answer “Yes” to any of the questions, please provide a brief explanation on the bottom of the second page. Complete all boxes, including *Total Pregnancies, Number of deliveries, Miscarriages, Ectopic pregnancies, Elective abortions and Living Children.*

**PLEASE INCLUDE ALL DETAILS OF YOUR MEDICAL AND OBSTETRIC HISTORY SO WE CAN ENSURE YOU GET BOOKED WITH THE RIGHT PROVIDER TYPE**

When we receive your paperwork, a nurse will call you to schedule your first OB visit. This appointment will take place between 10-13 weeks of pregnancy based on the date of your last cycle, and will be with a nurse practitioner, midwife, or physician depending on your health history. All prenatal lab work will be ordered at this appointment.

If you are transferring from another OB clinic, please ensure you complete the **Authorization for Disclosure of Medical or Dental Information** form so that we may request your OB records. If you have had previous C-section deliveries, please complete a separate authorization for each one so that we can request an operative report from the facility you delivered at.

Return the completed packet by delivering it to the Women’s Health Department front desk (NMCP, Building 2, 4<sup>th</sup> Floor), faxing it to 757-953-4947, or emailing it to:

[usn.hampton-roads.navhospporsva.list.nmcp-womenshealthclinicteam@mail.mil](mailto:usn.hampton-roads.navhospporsva.list.nmcp-womenshealthclinicteam@mail.mil)

If you have not heard from us within 3 business days from the day of submission, please call 757-953-4300 to ensure we received your intake paperwork.

Thank you very much, and we look forward to serving you!

OB/GYN Clinic No Show Policy Statement

**NO SHOW POLICY  
OB/GYN CLINIC  
Naval Medical Center Portsmouth**

We are committed to offering you and your family the best medical care available and delivering this care in a timely fashion. In an effort to accomplish this mission, we need your help. So, we ask that you carefully read the following policy and understand that we are committed to meeting your healthcare needs.

**1. Active Duty:**

- a. I understand that I am responsible for keeping my appointments and am requested to present **15 minutes** prior to my scheduled appointment time.
- b. I understand if I miss a scheduled appointment that my chain of command may be notified and this may result in being charged with an unauthorized absence.
- c. I understand if I am not able to keep my appointment, I will be held responsible and need to call the OB clinic 24 hours in advance to cancel my appointment and reschedule.

**2. Family Members:**

- a. I understand that I am responsible for keeping my appointments and am requested to present **15 minutes** prior to my scheduled appointment time.
- b. I understand that if I am not able to keep my appointment, I am held responsible and need to call the OB clinic 24 hours in advance to cancel my appointment and reschedule.
- c. Failure to call the OB clinic prior to my appointment will result in a "NO SHOW".

Clinic "NO SHOWS" result in setbacks to your treatment plan and prevents other patients from being scheduled in your place.

LOCAL FORM TITLE	
<b>GENETIC CARRIER SCREENING</b>	
<p>Genetic carrier screening is a test that looks at your genes to determine whether you are a carrier of certain genetic disorders. A positive result tells you with greater than 99% certainty that you are a carrier of a specific genetic disorder, and you could be at risk of having an affected child. If a risk is identified, you may wish to consider genetic carrier screening for your partner, consult with your health-care provider, or pursue genetic counseling. If you are pregnant, prenatal testing can be performed to find out whether your baby has inherited the genetic disorder. We currently offer carrier screening for the following disorders:</p> <p><b>Cystic fibrosis (CF)</b> is a genetic disorder and leads to life-long illness. It causes the body to produce very thick mucus that can damage internal organs. It can lead to chronic lung infections, digestive problems, poor growth and infertility. Symptoms range from mild to severe, but do not affect intelligence. On average, CF patients live into their mid to late thirties. About 1 in every 3,500 babies born in the U.S. has cystic fibrosis. Screening of newborns for cystic fibrosis is now performed in every state.</p> <p><b>Spinal muscular atrophy (SMA)</b> is a genetic disorder that affects the control of muscle movement. It affects a person's ability to control their muscles, including those involved in breathing, eating, crawling and walking. SMA has different levels of severity, none of which affect intelligence. However, the most common form of the disorder causes death by age two. About 1 in every 6,000 to 1 in every 10,000 babies born in the US has SMA.</p> <p>No test can detect 100% of genetic carriers. Even if your test results are negative, it is still possible that you could be a carrier of the genetic disorder, but the chance is small.</p> <p>For the most accurate interpretation of test results, the laboratory needs correct information about your ethnic background, family history of genetic disorders and family relationships (especially paternity).</p> <p>The decision to accept or decline genetic carrier screening is completely yours.</p> <p>Your test results are confidential and will become a part of your medical record. Your test results will be sent only to the health-care provider who ordered the test, or his/her agent, unless otherwise authorized by you or required by law. Your health-care provider is responsible for interpreting the test results and explaining them to you. No other test will be performed and reported on your sample unless authorized by your health-care provider.</p>	
<p>Before signing this form, I have had the opportunity to discuss genetic carrier screening with my health-care provider or someone he/she has designated. I understand that genetic counseling will be recommended if both I and my partner are carriers. My questions have been answered and I have all the information I need to make a decision at this time.</p>
